## CAREER OBJECTIVE

Motivated and detail-oriented Software Developer with a strong foundation in object-oriented programming, networking, and database management. Seeking to contribute to a dynamic organization where I can apply my technical knowledge of Linux, cloud concepts, and modern programming languages to develop reliable and efficient software solutions.

## EDUCATION

**Master of Computer Application (MCA)**, CMR University, Bengaluru Dec 2023 – Oct 2025  
CGPA: 8.1

**Bachelor of Computer Application (BCA)**, BVVS Science College, Bagalkot Jul 2020 – Dec 2023  
CGPA: 7.1

## TECHNICAL SKILLS

<b>Programming Languages</b>	Java, Dart, C++
<b>Front End</b>	JavaScript, React.js, Flutter
<b>Back End</b>	Spring, Spring Boot 3
<b>Database</b>	SQL, PostgreSQL, MongoDB
<b>Cloud</b>	Fundamental Cloud Concepts (AWS Basics)
<b>Other Skills</b>	Spring Security, RESTful APIs, Spring MVC (Model-View-Controller), Git / GitHub / Version Control, Docker, Postman

## EXPERIENCE / INTERNSHIP

**Saras Technologies** Dec 2024 – Feb 2025  
*Android and iOS Developer (Live Project)*

- Worked on a live mobile application project, contributing to feature development, bug fixes, and performance optimization.
- Developed and implemented key features using Java.
- Collaborated with the team to ensure smooth integration and deployment.
- Enhanced system reliability and user experience.

## PROJECTS

**Soft Drinks Management System** Aug 2024  
Developed a web-based system for managing inventory, sales, and customer data using MySQL and PHP. Designed with efficient data retrieval and reporting features.  
*Technologies Used: HTML, CSS, JavaScript, PHP, MySQL*

**Eyelash Application** May 2025 – Sep 2025  
Developed a mobile application for salon service booking and management, enabling users to schedule appointments, make secure payments, and manage profiles seamlessly. Implemented REST APIs for data communication and integrated Stripe for online payment processing. Ensured responsive UI and smooth performance across platforms.  
*Technologies Used: Flutter (Mobile Application), Java (Backend), REST API, Stripe Payment, MongoDB*
